## Relationship Violence

---

Relationship violence (also known as intimate partner, domestic, or dating violence) is a pattern of controlling behaviors used by one partner over the other. Most commonly used methods of relationship violence are verbal abuse, physical battery, sexual assault and emotional abuse.

Relationship violence:

- Occurs in all socioeconomic, racial, ethnic, national and religious groups.
- Occurs in heterosexual and same-sex relationships at about the same rates.
- Affects people of all ages, genders, and physical abilities.
- 1 in 5 women and 1 in 25 men are victims of domestic violence.

**An abusive relationship is an unhealthy relationship.**

**Are you in an abusive relationship?**
