Cypress College Radiologic Technology Program

Mission Statement:

The Cypress College Department of Radiologic Technology provides a high quality education to prepare a diverse population of students with entry level skills needed to become competent and confident radiographers.

Program Goals:

1. Students will have the knowledge and skills to competently and safely perform radiographic procedures.

2. Students will develop the skills necessary to communicate effectively.

3. Students will use critical thinking and problem solving skills.

4. Students will evaluate the importance of professional development and growth.

5. The program will provide the community with entry level radiographers for employment in the healthcare setting.

Student Learning Outcomes:

The student will:

a. Apply positioning skills in all required radiographic examinations.

b. Select appropriate technical factors for radiographic examinations.

c. Practice radiation protection for all radiographic examinations.

d. Employ proper patient care techniques.

e. Demonstrate oral and written communication skills.

f. Be able to relate to and anticipate the needs of the doctors and technologists.

g. Be able to adjust to changes, situations, patient conditions, and deviation from the normal routine.

h. Demonstrate knowledge of ethical requirements for an entry level radiographer along with ethical practices in a healthcare setting.

i. Understand their professional obligations upon gaining their ARRT status.
