Although a career in archaeology will eventually require at least a bachelor's degree (BA or BS) in Anthropology, entry level positions in CRM firms may not require a degree. In such cases, CRM firms look for employees with some level of experience in archaeological field methods and archaeological theory. This certificate provides students entering the CRM field with a statement of their preparedness in both method and theory, making them more marketable to CRM firms and a more attractive applicant to transfer colleges and universities.</p>
