

Highlights from the January 21st, 2015 Safety Committee Meeting

Facilitator: Robert Riffle - 11:10 am call to order Members Present: Robert Riffle, Marcia Jeffredo, April Guajardo, Shirley Smith, Robyn Udell, Valentina Purtell, Alex Bernal

Members Absent: Steve Banneck, Karen Cant, Marla McBride, Tami Oh, Debbie Valentine

District/campus radio project status: A loaner repeater has been in place since December. A new combination digital/analog one has been ordered. Because the District site is our E.O.C., the addition of an IP address has been recommended for clearer reception.

ASCIP report status from March 2014 inspection: It took more than three months for report to arrive, and the format was not conventional. Robert Riffle has addressed more than 90% of the contents to date.

Alex Bernal continued reporting graffiti on the old railroad right of way walls south of the campus to Orange County Public Works until they finally came and cleaned it up.

There was a Fire Marshall inspection in December. Recommended corrections being addressed include: (1) New doors and exit hardware for the northwest and southeast corners of the pool deck. (2) New doors at the south entrance of the Women's Shower & Locker/Training room. (3) New exterior doors for Gym 2-125. (4) Replacement of two diving boards and refurbishing of other. (5) SCE 117/118 needs lighted exit signage for its occupancy rating of over 50.

Testing of fire alarm and sprinkler system was 1/20/15. Additionally fire hydrants were flushed.

Valentina asked if (between semesters) we can post signage indicating that the campus is closed. This suggestion arose out of discussion involving the number of vagrants attempting to seek shelter in the buildings and rooftops when too few staff members are around to notice them sneaking in.

In the interest of safety and security there was also lengthy discussion about the possibility of limiting or restricting afterhours access to staff.

Alex suggested adding a card reader to the shower and locker area which is vulnerable afterhours.

Adjourned at 12:00 pm

Next meeting: Wednesday, February 18th, 11:00am -12:00pm
