

## Safety Committee Minutes – May 11, 2016

Call to order 11:05 a.m.

In attendance: Bob Riffle, Julia Cherney, April Guajardo, Mario Gaspar, Marla McBride, Tami Oh, Celeste Phelps, Shirley Smith, Robyn Udell, Debbie Valentine,.

Old Business:

Continued discussion regarding the possible staff interest in self-defense training, Marla may look into this.

Stryker Chair location will be carried through until the next meeting. Bob Riffle will investigate the placement of existing chairs and report back for further discussion.

New Business:

Three chemical spill kits were purchased for CC by the District. Two kits were placed in the SEM building, one was placed in Biology, one in Chemistry and one kit in the Physical Plant Warehouse. The ones in SEM are primarily for those disciplines with the Physical Plant kit for any spills that may occur throughout Campus.

Brief mention of how fabulous and safe the Holocaust event went.

A short discussion brought forward from Student Health Services regarding a recurring student problem. On a few occasions a student has had an episode of kicking/flailing and refusing medical assistance. Student Health Services has tried to intervene and is requesting information on how to move forward in providing assistance. The recommendation from the Safety Committee is to have a discussion with the Dean of Student Services for assistance in determining any information into the Students background and history so that a solution and/or recommended assistance may be provided for this student.

Good of the order:

Bloodborne Pathogens & Hazardous Materials training is scheduled for the Health Science Division in August.

4 hour online training for Lead & Asbestos training will be started this summer for the M & O staff. In the past this has normally been a classroom training program.

Adjourn: Noon
